

TYRIAK

SOCIAL MEDIA STRATEGY

MARKET RESEARCH

- **Digital Landscape**

Social media usage in Egypt and the MENA region continues to grow rapidly.

Over **70% of Egyptians** use at least one social media platform daily.

Instagram and TikTok dominate among Gen Z and Millennials.

Facebook remains strong among adults and older users (especially caregivers and families).

Video-based content (short-form, authentic, and emotional) performs best for health and wellness sectors.

- **Healthcare & Wellness Trends**

Online health awareness campaigns are rising post-COVID.

Users trust platforms that offer **educational** and **emotional storytelling** rather than direct sales.

Growing interest in **digital health tools** for medication reminders, fitness, and self-care.

- **User Behavior**

Gen Z mothers and **athletes** rely on Instagram and TikTok for health tips and lifestyle routines.

Seniors and caregivers are reachable via Facebook, WhatsApp, and YouTube.

Users respond best to **trust-based messaging**, **Arabic-language content**, and **real-life testimonials**.

INDUSTRY OVERVIEW

- **Sector Growth**

- The digital health and wellness communication industry in MENA is booming.
 - Estimated **20%+ annual growth** in digital ad spending for healthcare brands.
 - Pharmaceutical and healthtech startups now allocate **over 40%** of marketing budgets to digital channels.

- **Shift from Traditional Media**

- **TV ads** remain strong for mass awareness but offer **poor targeting** and **high costs**.
- **Social media** provides precise audience segmentation (location, interests, age, behavior) and better ROI.

- **Content Evolution**

- Shift toward **interactive formats**: short videos, polls, live Q&A with doctors, and patient stories.
- **Arabic localization** and **inclusive content** (voice, visuals, simplified messaging) are critical for accessibility.

- **Opportunity for Tiryak**

- Few health apps in Egypt have built a strong, consistent social identity.
- Tiryak can become the “**human**” **digital health brand** combining emotional storytelling, inclusivity, and wellness education.

Competitive Analysis

CHEFAA

STRATEGY

- Uses motion graphics and explainer videos to promote delivery and convenience.
- Focus on mothers and families; educational posts about medicine safety.
- Paid ads on Facebook for product offers and brand awareness.

STRENGTH

- Consistent posting and brand awareness.

WEAKNESS

- Limited engagement with younger audiences (Gen Z) on newer platforms.

Competitive Analysis

YODAWY

STRATEGY

- Combines outdoor ads with digital presence.
- Focused on awareness and a corporate tone (insurance integration, reliability).
- Low entertainment or lifestyle appeal.

STRENGTH

- Strong reputation, trust, and wide coverage.

WEAKNESS

- Low emotional storytelling and minimal community interaction.

OUR ROLE MODEL

(Medisafe / MyTherapy)

Strategy: Focus on utility reminders, tracking, and adherence education.

Strength: Clean UX and professional credibility.

Weakness: Lack of Arabic localization or MENA-focused community building.

Tiryak's Advantage

- Opportunity to blend **Medisafe's functionality**, **Chefaa's awareness tactics**, and **Gen Z-style storytelling**.

- Unique positioning as an **inclusive health companion** for patients, caregivers, athletes, and new mothers.

PESTEL Analysis

Political

- Egypt supports digital transformation and e-health innovation, allowing open social media marketing for health apps.
- Must comply with MOH and content advertising laws.

Economic

- Rising inflation increases ad costs, but social media still offers the best ROI compared to TV.
- Affordable marketing suits Tiryak's low-cost positioning.

Social

- Increasing social media penetration (especially TikTok & Instagram).
- Growing awareness about health and medication management.
- Preference for relatable, Arabic-language storytelling.

PESTEL Analysis

Technological

- Continuous updates in platform algorithms favor video content (Reels, Shorts, TikToks).
- Advanced targeting tools (Meta Ads, TikTok Ads Manager) enable precision marketing.

Environmental

- Minimal direct impact, though sustainability themes (eco-friendly medication packaging, awareness) resonate positively with audiences.

Legal

- Need to comply with healthcare communication standards avoid medical claims.
- Must ensure privacy and accuracy of health-related content.

- New, flexible brand with modern tone and inclusive visuals.
- Opportunity to craft tailored content for each audience (seniors, caregivers, Gen Z moms, athletes).
- High potential for storytelling and influencer collaborations.

- No existing follower base or brand awareness.
- Limited marketing resources initially.
- Need for continuous engagement and creative production

- Rapidly growing use of Instagram & TikTok for health, fitness, and lifestyle content.
- Partnerships with micro-influencers, pharmacies, and doctors for organic reach.
- Expansion across Arabic-speaking countries with localized content..

- Strong competition from Chefaa & Yodawy's established presence.
- Algorithm changes and rising ad costs.
- Oversaturation of health-related ads leading to lower attention spans

objectives

1. Brand Awareness Objective

Goal: Increase brand visibility and public recognition.

Targets:

Achieve **+50% growth in reach** across Facebook, Instagram, and TikTok within **6 months**.
Increase **brand recall** among target users (Gen Z, caregivers, athletes, and new mothers).

2. Engagement & Community Building Objective

Goal: Create a trusted, health-focused online community.

Targets:

Improve **engagement rate** to **above 5%** within the first **6 months**.
Build an **active online community** that seeks daily health and medication-adherence content.

3. Conversion to App Downloads & Active Users

Goal: Turn social media viewers into active app users.

Targets:

Drive **30,000 app downloads** from social media campaigns within **12 months**.
Increase **conversion rate** from content → store clicks by **20%**.

objectives

4. Trust & Credibility Objective

Goal: Position Tiryak as a **reliable digital health companion**.

Targets:

Publish **weekly educational and expert-backed content** about medication adherence.

Achieve **80% positive sentiment score** across all platforms.

5. Customer Support & Retention Objective

Goal: Strengthen audience relationships and improve loyalty.

Targets:

Reduce **response time** to under **1 hour** on social platforms.

Increase **returning viewers and loyal followers** by **25%** within **6 months**.

6. Influencer & Advocacy Growth Objective

Goal: Leverage creators and patient voices to enhance brand authenticity.

Targets:

Collaborate with **at least 10 influencers** in healthcare, lifestyle, and sports.

Generate **User Generated Content (UGC)** weekly to enrich brand authenticity.

STRATEGY

STRATEGIC DIRECTION

- **Goal:**
Position Tiryak as an *inclusive, trusted, and human-centered digital health companion*.
- **Key Focus:**
 1. Simplify medication management and promote consistency.
 2. Use **emotional storytelling, educational content, and authentic engagement**.
 3. Build awareness and trust through **Arabic-language, relatable, and visually engaging content**.

Main Platforms: **Facebook, Instagram, TikTok, YouTube.**

TARGETING STRATEGY

Multi-Segment Approach:

Elderly & Chronic Patients: Voice-assisted, simple visuals, easy messages.

Caregivers & Families: Informative posts focusing on peace of mind.

Gen Z Mothers: Emotional, lifestyle-based TikTok & Instagram content.

Athletes: Motivational, consistency-focused messages.

CONTENT STRATEGY

Purpose: Balance education, engagement, and emotional connection.

Main Themes:

- Medication & Health Tips
- Storytelling & Testimonials
- Wellness & Lifestyle
- Community & Support
- Brand Purpose

Formats:

- Reels & TikToks for storytelling.
- Carousels & quotes for awareness.
- Live Q&As and expert talks.
- UGC for authenticity.

PLATFORM STRATEGY

TACTICS

1. Brand Awareness Tactics

To boost Tiryak's visibility and brand recall, the campaign will focus on **visually consistent, story-driven content** across Instagram, TikTok, and Facebook.

Posting Frequency: 3–4 times per week to maintain steady audience exposure.

Launch Campaign: *#NeverMissADose* — a series of short Reels and TikToks highlighting real-life medication challenges and how Tiryak helps solve them.

Educational Content: Simple Arabic carousels showcasing app features and benefits.

Paid Advertising: Meta Ads and TikTok Ads Manager targeting **Gen Z mothers, athletes, and caregivers**, optimized for reach and engagement.

2. Engagement & Community Building Tactics

Community engagement will be developed through **interactive content** and **two-way communication**.

Interactive Stories: Weekly polls and Q&A sessions inviting followers to share medication experiences.

Live Sessions: *"Tiryak Talks"* — a monthly livestream with pharmacists or doctors to build trust and participation.

User-Generated Campaign: *#MyTiryakRoutine* — encouraging followers to share videos of how they organize or take their medicine using the app.

TACTICS

3. Conversion to App Downloads & Active Users

Tactics will aim to convert engaged audiences into active Tiryak users.

Call-to-Action (CTA): All profiles will feature clear “Download Now” links to app stores.

Video Tutorials: YouTube and Reels will showcase app features and ease of use.

Remarketing Campaigns: Personalized ads targeting previously engaged users.

Promotional Offers: Limited-time deals such as *“Free Month of Premium Reminders”* to drive trial and conversion.

4. Trust & Credibility Tactics

To strengthen Tiryak’s reputation as a **reliable health companion**, credibility will be reinforced through expert-led and educational initiatives.

Weekly Series: *“Medication Myths vs Facts”* — pharmacist-verified posts and infographics.

Professional Collaborations: Partnerships with healthcare professionals and certified influencers.

Testimonials: Positive patient and caregiver stories shared regularly to build emotional trust.

TACTICS

5. Customer Support & Retention Tactics

A proactive customer support strategy will be implemented to maintain user satisfaction and loyalty.

Response Time: Dedicated support team ensuring replies within **one hour**.

Automation: Quick replies for frequently asked questions.

Highlight Stories: Sections for FAQs, tutorials, and troubleshooting guides.

Personalization: Thank-you messages and birthday greetings for loyal followers.

6. Influencer & Advocacy Growth Tactics

Influencer partnerships will enhance authenticity and advocacy for the brand.

Collaborations: Work with at least **10 micro- and mid-level influencers** across health, fitness, and parenting niches.

Content Style: Influencers will produce authentic testimonial-style videos using the app.

Ambassador Stories: Short videos featuring patients and caregivers sharing real experiences with Tiryak.

User-Generated Content: Weekly reposts of community submissions to maintain authenticity and engagement.

ROLES AND RESPONSIBILITIES

Social Media Manager

Oversees the overall social media strategy, content calendar, and performance tracking.

Content Creator

Handles graphic design using **Canva** and video editing for Reels, TikToks, and Shorts using **CapCut**. Develops story concepts and scripts for each video.

Social Influencer

Manages daily posting schedules and audience engagement across platforms.

External Agency

Responsible for running social media advertising campaigns through **Meta Ads Manager** and **TikTok Ads Manager**.

Platform Action Plan

INSTAGRAM AND FACEBOOK

Content Plan:

3 posts per week.

2 reels per week.

Weekly Actions:

Week 1: Launch brand awareness campaign.

Week 2: Share educational content about medication management.

Week 3: Publish “A Day in the Life with Tiryak” stories and Reels.

TIKTOK

Content Plan:

3 to 4 videos per week.

Weekly Actions:

Weeks 1–2: Create three videos addressing common medication challenges.

Weeks 3–4: Post “Tiryak Routine” content showcasing daily app use.

YOUTUBE

Content Plan:

1 long-form video per month.

Action:

Create and publish a tutorial video demonstrating **how to use the Tiryak App** effectively.

1-2 MONTHS

- Finalize all social media profiles.
- Conduct a soft launch with “Coming Soon” announcements.
- Begin regular content publishing.
- Launch paid advertising targeting key audience segments.

3-4 MONTHS

- Host monthly live sessions featuring health experts.
- Collaborate with influencers to expand visibility and engagement.
- Launch a content campaign around the “Tiryak Routine.”

5-6 MONTHS

- Begin processing product orders with promotional offers.
 - Implement loyalty initiatives for customers and partners to strengthen retention.
- 

Control (Social Media KPIs & Monitoring)

To ensure that Tiryak's social media strategy effectively achieves its objectives, the following Key Performance Indicators (KPIs) and monitoring methods will be applied. These metrics will help track progress, measure impact, and guide future optimization..

1. Reach & Awareness

- Number of followers gained per platform (Facebook, Instagram, TikTok, YouTube).
- Total post reach and impressions across all channels.
- Monthly growth rate of followers and page views.

2. Engagement

- Engagement rate (likes, comments, shares, and saves).
- Total number of interactions per post or reel.
- Average watch time and completion rate for all video content.

3. Content Performance

- Identification of top-performing content types (Reels, Stories, static posts).
- Correlation between posting frequency and engagement ratio.
- Performance results of educational and awareness campaigns.

Control (Social Media KPIs & Monitoring)

To ensure that Tiryak's social media strategy effectively achieves its objectives, the following Key Performance Indicators (KPIs) and monitoring methods will be applied. These metrics will help track progress, measure impact, and guide future optimization..

4. Ad Campaigns

- Cost per Click (CPC) and Cost per Engagement (CPE).
- Conversion rate from paid social ads (e.g., app installs, website visits).
- Return on Ad Spend (ROAS) to measure efficiency of advertising investments.

5. Community Management

- Average response time to comments and direct messages.
- Number of conversations and inquiries handled by community managers.
- Sentiment analysis tracking positive versus negative audience interactions.

6. Monitoring & Reporting

- Preparation of weekly and monthly social media performance reports.
- Use of analytics tools such as Meta Business Suite, TikTok Analytics, and YouTube Studio.
- Monthly review meetings to evaluate progress and adjust content or ad strategies based on results.
