

TIRYAK

CONTENT STRATEGY

Define Goals & Objectives

Overall Goal:

To position Tiryak as a trusted, inclusive, and human-centered digital health companion that helps users manage their medication routines efficiently through accessible, localized, and engaging digital experiences.

1.Brand Awareness

- Increase visibility and recognition of Tiryak as a reliable medication reminder and health companion app.
- Target a +50% growth in reach across Facebook, Instagram, and TikTok within 6 months.

2.Engagement & Community Building

- Build an online community of caregivers, seniors, and health-conscious individuals.
- Achieve an engagement rate above 5% and encourage user-generated content (UGC) through campaigns like #MyTiryakRoutine.

3.App Downloads & Active Users

- Drive at least 30,000 app downloads through social media and digital marketing within 12 months
- Improve the conversion rate from content → store clicks by 20%.

Define Goals & Objectives

Specific Objectives:

4.Trust & Credibility

- Establish Tiryak as a credible and educational source about medication adherence.
- Publish weekly verified content and reach 80% positive sentiment across all platforms.

5.Sales & Retention

- Sell 400 medication boxes within 6 months and build customer loyalty through referral and discount programs.
- Reduce social media response time to under one hour and increase returning followers by 25%.

Buyer persona

- **Name:** Fatma, 60
- **Health Condition:** Takes daily medications for hypertension

Goals:

- Take her medication on time without confusion
- Use an app that is simple, visual, and easy to understand

Behavior:

- Uses a basic smartphone; trusts Facebook and TV for information.

Motivations

- Wants to stay healthy so she can continue supporting her family

Challenges:

- Struggles to read text
- Sometimes forgets doses

Preferred Content:

- Voice reminders
- Large icons & visual guides

**TIRYAK is the best
for her**

Content Audit

Strengths:

Clear production workflow from ideation to optimization.

- Diverse content types (educational, storytelling, UGC, routines).
- Strong accessibility support: Arabic text, voiceovers, simple visuals.
- Effective distribution across Instagram, TikTok, Facebook, YouTube.
- Strong optimization: A/B testing, repurposing, analytics-based timing.
- Emotional and human-centered content that builds trust.

Weaknesses:

- Limited persona-specific content (elderly, chronic patients, mothers).
- No SEO or long-form search content.
- No structured community-building plan.
- Lack of seasonal and health-awareness content.
- No app data-driven content used in creatives.

Opportunities:

- Launch weekly series.
- Add chronic illness education as a main pillar.
- Introduce habit-building challenges.
- Use medical influencers consistently. & Expand caregiver and mother-focused content.

Competitor Analysis (Chefaa & Yodawy)

Direct Competitors

1. Chefaa – A medicine delivery platform with prescription management and reminders.
2. Yodawy – A large pharmacy delivery network with insurance integrations and monthly chronic refills.

Competitor Strengths:

- Clear promotional content.
- Strong social proof.
- Medical and pharmacy partnerships.
- Heavy focus on drug delivery.

Competitor Weaknesses:

- Weak educational content.
- No emotional storytelling.
- Not elderly-friendly.
- Overreliance on static posts and offers.
- No high-quality visual or narrative content.

Competitor Analysis (Chefaa & Yodawy)

Tiryak Competitive Advantage:

- Focus on medication adherence, not selling medicine.
- Strong emotional and human storytelling.
- Better accessibility for elderly and low-literacy users.
- Strong educational tone and trusted health guidance.
- Clear identity as a routine-building app.

Opportunities for Tiryak:

- UGC campaigns and hashtags.
- Partnerships with doctors/pharmacists.
- Chronic illness awareness content.
- Highlighting differentiation from competitors without direct attack.
- Owning the “health routine expert” niche.

Key Messages

Core Message:

“Tiryak helps you stay consistent with your medication routine, so you live healthier and worry-free.”

Message Pillars:

1. Trust & Safety – Reliable reminders, expert-backed info.
2. Accessibility – Easy for elderly and low-literacy users.
3. Emotional Support – Real stories and shared experiences.
4. Habit Building – Small steps that create major improvements.
5. Community – Sharing routines and connecting users.

Execution Recommendations

- Launch #MyTiryakRoutine campaign.
- Collaborate with 3–5 medical influencers.
- Weekly storytelling video.
- Create SEO-supported micro-blog.
- Dedicated content stream for mothers & chronic patients.

Content Themes

Educational:

- Myths vs facts
- Safe medication use
- Chronic illness awareness

Routine Content:

- Morning/night routines
- Weekly challenges

Caregiver Support:

- Managing family medications
 - Safety tips

Emotional & Human Stories:

- Success stories
- Real-life routines

App-Centered Content:

- Feature breakdowns
- Reminder setup guides
- Benefits of using Tiryak

Content Ideation & Content Calendar Creation

1. Awareness Content

- Common mistakes in managing medicines at home and how Tiryak solves them.
- How to avoid mixing up medications: one smart box is all you need.
- Why taking medication on time matters more than people realize.

2. Emotional & Human Content

- “Who’s the first person you would love to take care of using Tiryak?”
- “Caring isn’t just words – Tiryak helps you show it every single day.”
- “You don’t have to be there to make sure they’re safe – Tiryak keeps an eye for you.”

3. Educational Content

- Step-by-step guide to setting up medication reminders in the Tiryak app.
- How to use the Tiryak Smart Box for the first time.
- Daily vs. weekly pill routines and how Tiryak supports both.
- Three habits to help you never forget a dose again.

Content Ideation & Content Calendar Creation

4. Storytelling Content

- A little girl shares how Tiryak helps her grandfather take his pills on time.
- “From forgetfulness to full control” – Mahmoud’s journey with Tiryak.
- Real stories of peace of mind through Tiryak’s system.

5. Interactive Content

- Weekly challenge: Use Tiryak and track how often it reminded you.
- Quiz: “How many doses did you miss last week?”
- Question: “Who do you want to make sure never misses their medication?”
- UGC: “Show us your Tiryak box at home and tag us to get featured.

6. Promotional Content

- “One smart box that organizes all your meds effortlessly.”
- “Your peace of mind starts here – order Tiryak today.”
- “Give the gift of comfort: buy Tiryak for someone you love.”

Learn more about Tiryak!

Content Creation & Optimization

Tiryak's content creation process focuses on producing high-quality, accessible, and emotionally engaging material tailored to each audience segment.

Content will be intentionally crafted to support awareness, engagement, trust-building, and app conversions.

Content Production

Process:

Concept Development

1. Brainstorm ideas based on themes: medication adherence, wellness, routines, storytelling, and expert-backed education.
2. Develop scripts and storyboards for Reels, TikToks, and YouTube videos.
3. Plan visuals that support low-literacy and elderly users (icons, voiceovers, clear text).

Content Design

1. Use Canva for graphics, carousels, and quote posts to maintain consistent branding.
2. Apply Tiryak's color palette (blue, cyan, white) for trustworthy and calming visuals.
3. Include Arabic-language captions for accessibility and cultural relevance.

CONTENT PRODUCTION PROCESS:

Optimization Techniques

1. A/B testing headlines, thumbnails, and reel covers.
2. Optimize posting times based on analytics (Meta Suite, TikTok Analytics).
3. Re-edit and repurpose top-performing content for multiple platforms.
4. Adjust design and tone based on engagement and audience feedback.

Content Types Produced

1. Short educational videos (tips, myths vs facts)
2. Story-based content showing real-life medication challenges
3. Emotional testimonial videos
4. Carousels for medication instructions and wellness habits
5. UGC-style videos for authenticity

Video Creation

1. Use CapCut to edit short-form videos (Reels/TikToks/Shorts).
2. Add voiceovers for users who struggle with reading.
3. Include on-screen instructions and subtitles for clarity.

Content Distribution & Promotion

Tiryak's distribution strategy ensures that content reaches the right audience at the right time, maximizing visibility, engagement, and app downloads.

Instagram

- Reels for storytelling and routines
- Carousels for education
- Stories for polls, Q&A, reminders
- Highlights for tutorials, FAQs, testimonials

Tiktok

- Trend-based videos for Gen Z and mothers
- App routine challenges
- Humor-based reminders
- Duet/react videos with influencers

Facebook

- Educational posts for caregivers
- Medication safety instructions
- Community engagement updates
- Direct customer support

Youtube

- Long-form tutorials
- Interviews with healthcare experts
- App walkthroughs

Content Distribution & Promotion

Tiryak’s distribution strategy ensures that content reaches the right audience at the right time, maximizing visibility, engagement, and app downloads.

Paid Promotion

- Run targeted ads through Meta Ads.
- Campaign objectives: Reach → Engagement → App Installs.
- Retarget users who engaged with Reels/TikToks but didn’t download the app.
- Boost top-performing organic posts to maximize reach.

Influencer Distribution

- Collaborate with micro- and mid-tier influencers in: Health & wellness Parenting, Fitness
- Influencers create testimonial-style content using Tiryak.
- Repost influencer content to build trust and credibility.

Cross-Platform Integration

- Reuse content across platforms with tailored formats:
- TikTok videos → Instagram Reels → YouTube Shorts
- Carousels → Facebook posts
- Live sessions → Saved highlights and YouTube uploads

Budget & Resource Allocation

A. Estimated Budget Allocation

1. Content Creation (Videos, Reels, Graphics)
 - Filming seniors/caregivers, editing, photography
 - Estimated monthly cost: 5,000 – 8,000 EGP
2. Copywriting & Content Strategy
 - Writing captions, scripts, storytelling content
 - Monthly cost: 2,000 – 4,000 EGP
3. Paid Advertising
 - Facebook, Instagram, TikTok campaigns
 - Monthly ad budget: 10,000 – 15,000 EGP
4. Tools & Software
 - Canva Pro, Adobe Suite, CRM systems
 - Average cost: 1,000 EGP per month
5. Influencers & Partnerships
 - Collaborations with doctors, pharmacists, and family-health influencers
 - Cost per collaboration: 3,000 – 10,000 EGP

Budget & Resource Allocation

B. Human Resource Allocation

- Content Creator – Designs graphics, shoots videos, edits
- Social Media Manager – Posting, engagement, community management
- Copywriter – Writes scripts, captions, educational content
- Marketing Manager – Oversees overall content strategy and analytics
- Technical Team – Improves app features based on user feedback
- Ads Specialist – Manages paid campaigns and optimization

Performance Measurement & Optimization

A. Key Metrics to Track (KPIs)

1. Reach & Awareness

- Impressions, views, follower growth

2. Engagement Metrics

- Likes, comments, shares, saves, engagement rate

3. Conversion Metrics

- App downloads, conversions from ads, conversion rate

4. Sales Metrics

- Boxes sold, repeat purchases, caregiver sign-ups

5. Content Performance

- Best content formats, best CTAs, best posting times

Performance Measurement & Optimization

B. Optimization Process

1. Weekly Review

- Analyze engagement patterns, identify top posts

2. Monthly Optimization

- Refresh ad strategy, improve content quality

3. A/B Testing

- Test different visuals, captions, hooks

4. Feedback Integration

- Analyze user comments, app reviews, and improve content

C. Reporting

1. Weekly Reports

- Key metrics, top-performing content, insights

2. Monthly Strategy Review

- Compare KPIs with goals, update next month's plan
